Shipping Information

We can ship orders to almost any address in the world. Please see below for information concerning shipping methods for domestic and international orders.

Domestic Orders (within the Continental United States):

Orders being shipped within the Continental U.S. will be shipped by United Parcel Services (UPS). The shipping address will need to be a physical street address and not a postal box number.

Orders are usually shipped out the same day they are received. The estimated delivery time is three to five days.

Orders being shipped outside of the Continental United States:

Orders being shipped outside of the Continental United States will be shipped through the United States Postal Service. The customer will receive an estimate by email stating the price to ship the order. He/she will need to respond back to us to accept the charges. Once we have been notified that the customer accepts the charges, we will ship the order to the address given.

International orders take longer to ship than domestic orders. The reason for this is because they must clear customs before being delivered. Also note, that unless the order is shipped using Global Express Mail we are unable to track the package once it leaves the Continental U.S.

International orders may also be sent by UPS and Bax Global.
